WOMEN'S VOICES FOR THE EARTH

OUR HEALTH. OUR FUTURE. TOXIC FREE.

Community Partnerships Program

Amplifying the strength of our voices, one passionate business at a time.

Women's Voices for the Earth (WVE) works with businesses and organizations that believe in the power of women's voices as a means to create and uphold a less-toxic future built on honesty and trust.

ABOUT THE PROGRAM.

Tens of thousands of women are raising their voices nationwide, calling for a change in consumer choices, health-protective laws, and corporate accountability and transparency. It's no secret that women today make 85% of buying decisions in the average home. That adds up to some incredible economic power!

Businesses like yours have a positive role to play as leaders in this movement towards a toxic free future. Certain chemicals found in products and released into our environment can lead to health impacts that alter each of our lives, affecting our livelihoods.

Our Community Partners are committed to forwarding a collective vision for a toxic-free future by promoting healthy working environments for their employees, healthy products and services for customers, and increasing awareness of the links between women's health and toxic chemicals in our daily environments.

If you are a conscientious leader within your company, as well as your consumer community, we invite you to join us as a Community Partner. WVE is currently building partnerships in the following fields:

Salons
Sustainable and Green-Cleaning Businesses
Other Small or Independently-Owned Businesses
Health Practitioners (Acupuncturists, Ayurvedic Specialists, Wellness Coaches, Nurses, etc.)

WVE intends to grow the above categories of partnerships within the year. If you do not see your business listed above, please contact us for more information on partnership opportunities.
